

### **Boulevard & Back Alley Policy**

#### **Purpose:**

To clearly define the obligations of the property owners and the Village of Richmond.

The Property Owners are responsible for the upkeep on the boulevards and in the back alleys; maintain the current state whether its grass, dirt or gravel/rock.

- If there is grass, ensure it's mowed.
- If there is dirt or gravel/rock ensure that it is weed free.
- Ensure debris is not put on the streets

If the property owner wants to plant grass this does not need to be approved by Council, anything other than planting grass needs prior Council approval.

If the trees on the boulevard need to be trimmed contact the Village office. This will be looked at on a case by case basis.

Some factors that are considered but not limited to are:

- Is this causing a public safety hazard?
- Is it aesthetics or causing damage to the yard, sidewalks or street?
- What type of tree is it?
